DEPARTMENT _____

RE: Discharge from St. Louis Street Auto Body Shop

Checked out a complaint in regard to a discharge from St. Louis Street Auto Body Shop, 1910 St. Louis, and found water from their car wash area being discharged to St. Louis Street. We contacted the shop manager, Mr. Elayer, and informed him that he could not discharge this water to the street. To correct the problem, a floor drain needs to be put in and attached to the sanitary sewer. Mr. Elayer said that he would put in a floor drain and let us know when the work is completed.

Mr. Elayer
